#### Installation overview

This section explains how to install EcoChange on your PC and use it.

- Check the PC to use EcoChange.
- Check and install the software required to use EcoChange.
- Confirmation of EcoChange startup

# PC that can use Eco Change

### Hardware specifications

CPU Intel Core i Series or higher recommended Memory 2GB or more HDD 100MB or more (EcoChange operation required capacity) \* Separate EDI data download area is required

# OS (Operating System)

Windows7 or later recommended (Japanese / English) \* Supports 64-bit version only.

\* Please contact us if you want to run on Linux.

### Network environment

Lines that limit communication speed due to increased communication volume are not recommended/Wired LAN connection recommended between PC and router (Wi-Fi connection not recommended)

## Required software

Adobe Acrobat Reader version 7 or later (required only when issuing a PDF form)

# Printer

Necessary when printing PDF forms. Laser printer recommended..

(Inkjet is not recommended due to unclear bar code printing)

#### Install required software

Install the required software that is not installed.

#### Install Adobe Reader

If Adobe Reader is not installed.

Go to https://get.adobe.com/reader/.

#### Install EcoChange

Install EcoChange main unit.

#### Download the installer

Download the EcoChange installer from the URL distributed with your account.

Download the setup program to any location.

#### Install EcoChange

Launch the downloaded installer and follow the instructions to install EcoChange.
